ABOUT THE COMPANY

Zakład Techniki Medycznej „TECH-MED” Sp. z o.o. (Medical Technology Company „Tech-Med” Ltd.) is a **Polish manufacturer of the specialized medical equipment**. We have been supplying our products to hospitals and other medical institutions both in the country and abroad (Europe, Africa, America) **for 25 years**. The success of our company is a combination of **knowledge, many years of experience** and **innovative approach**, which allowed for the creation of a **modern line of products using the latest technology**.

We hope that the **high quality and durability of our products** and the **high flexibility in adjusting the products to your individual needs** will help you select the medical products, which will meet all your expectations. **As a producer we have the possibility to modify products!**

We have implemented and certified Quality Management Systems PN-EN ISO 9001:2015 and PN-EN ISO 13485:2016-04.

In addition, we provide a full service of warranty and post-warranty services for own brand products. To meet the expectations of our customers, we have expanded our offer with the products of recognized domestic and European producers.

Experienced team

ZTM „TECH-MED” Sp. z o.o. company's largest capital is people who create it.

The most important is the product!

High quality and durability of our products and attractive design are our priority and the main goal we set ourselves each day!

Technical consultancy

Thanks to the experienced team of specialists, sale at ZTM „TECH-MED” is always connected with professional advice and technical support.

We invite you to familiarize yourself with our product offer.

INNOVATIONS

NON-MAGNETIC PRODUCTS

Innovative products made of non-magnetic materials.

Rehabilitation tables

Stands for medical equipment

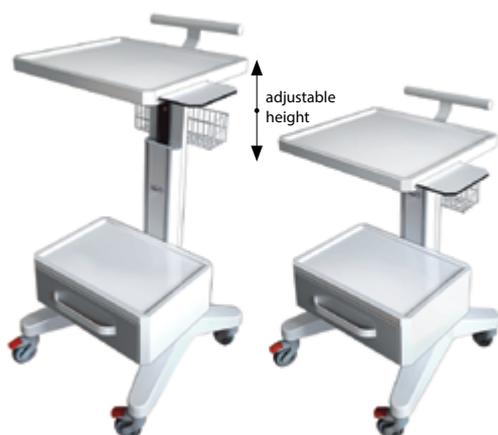

Multifunctional carts

Mobile screens

PRODUCTS WITH REGULATION OF HEIGHT USING A GAS SPRING

The new solution is the use of a gas spring to adjust the height or angle of inclination of a specific element of the product by a foot pedal or a manual lever.

Carts for medical equipment

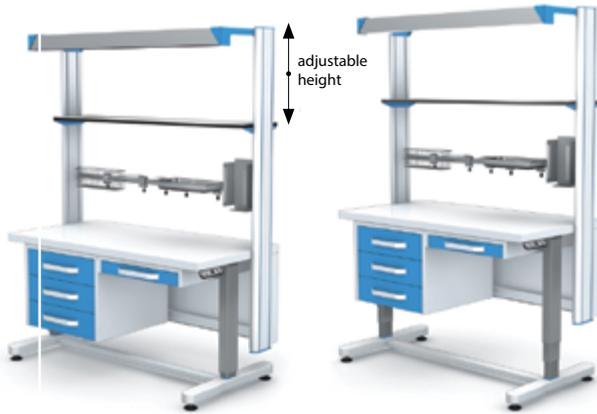

Bedside tables

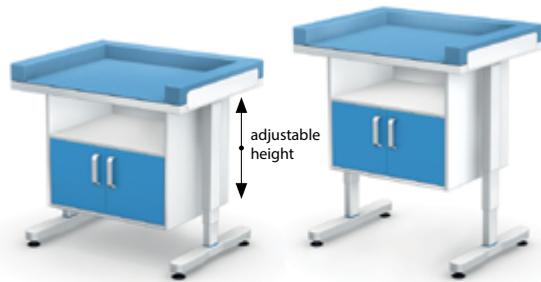

Neonatal cribs

PRODUCTS WITH ELECTRIC ADJUSTMENT OF HEIGHT

Work tables

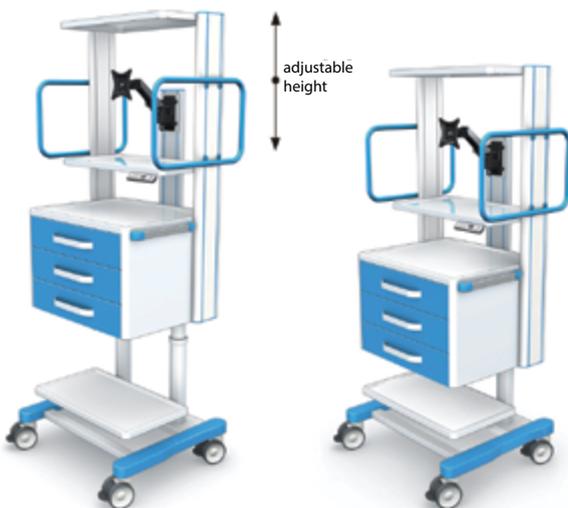

Innovative products with electric drive enabling height adjustment using an electric actuator.

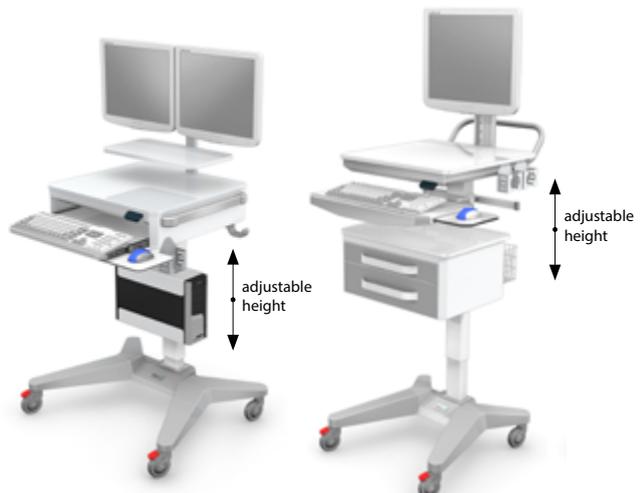

Treatment tables for newborns

Instrumental tables

Carts for medical equipment

APAR-2

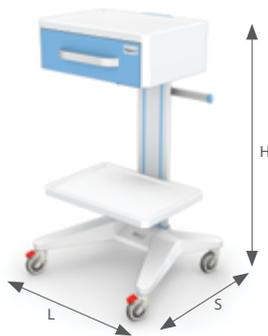

APAR-3

APAR-4

APAR SERIES

The elements of **APAR series** are made of:

- frame** of powder coated aluminum profile, allowing any adjustment of the distance between the shelves and installation of additional equipment
- shelves and drawer** of powder coated steel
- top** with deepening to prevent equipment from sliding off
- decorative** elements powder coated in colours consistent with TECHMED RAL palette
- base** of steel with ABS plastic cover, equipped with 75 mm diameter castors, including two with lock

Additional equipment: power strip, monitor holder, accessories basket, instrumental rail, cable arm, IV pole, extension arm, keyboard shelf, waste bag holder, oxygen tank holder, slide-out side top for a mouse, cart handle

APAR-1

Dimensions of the cart without optional equipment:

dimensions of the base (depending on the cart's height):

510 x 450 mm [L x S]

510 x 520 mm [L x S]

670 x 540 mm [L x S]

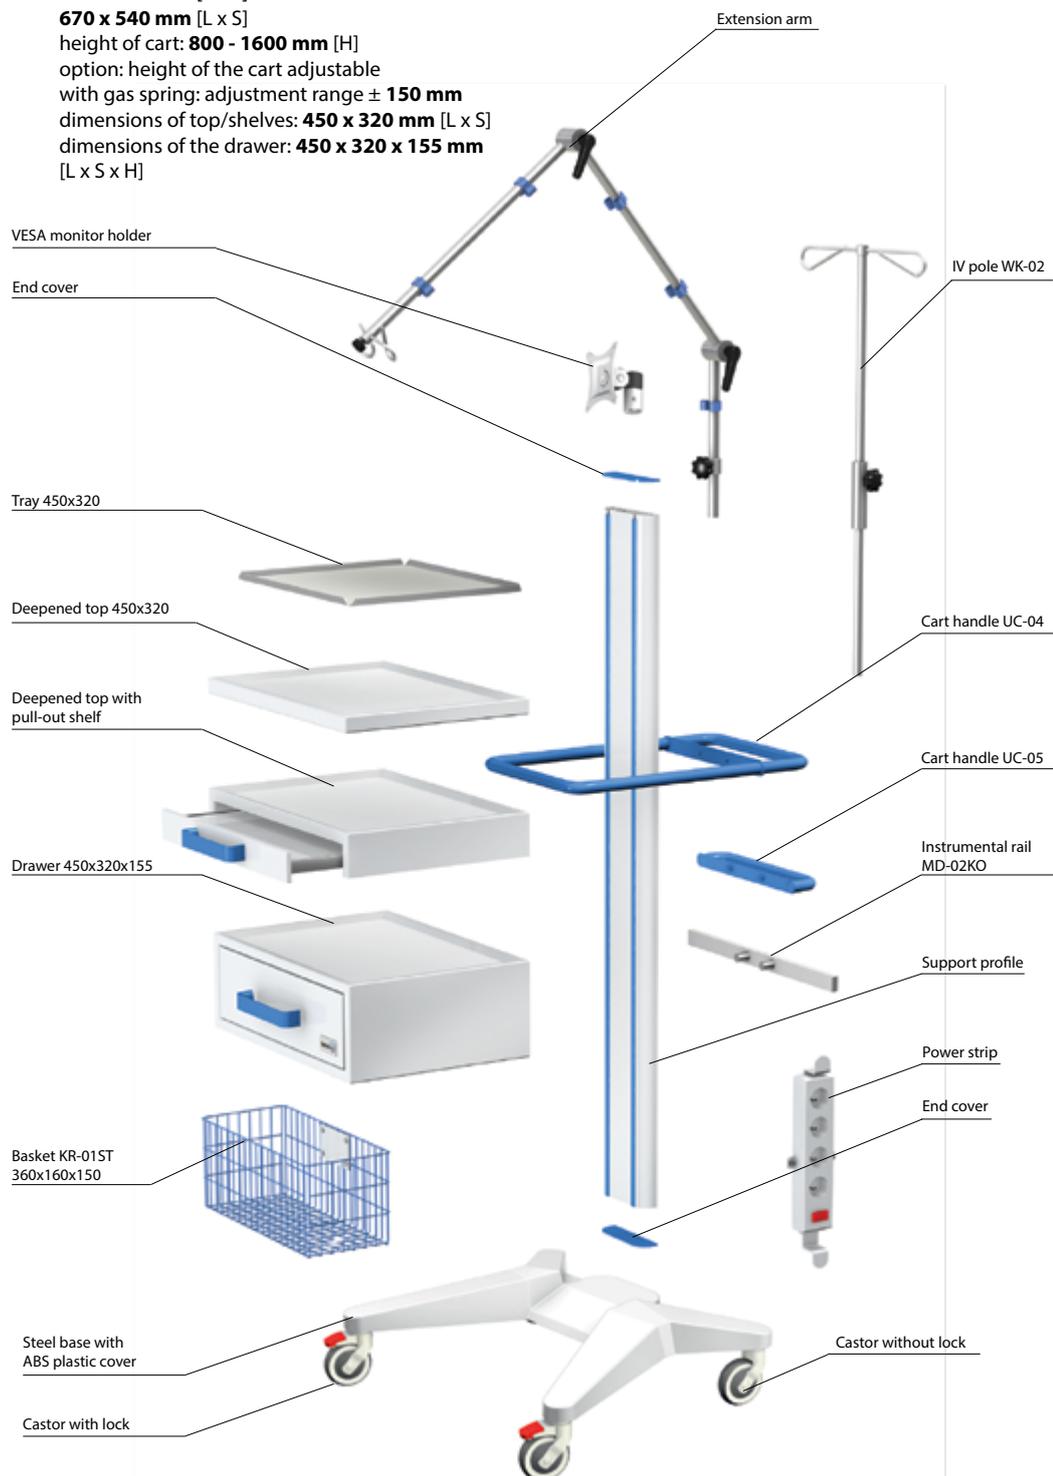

height of cart: **800 - 1600 mm** [H]

option: height of the cart adjustable

with gas spring: adjustment range ± 150 mm

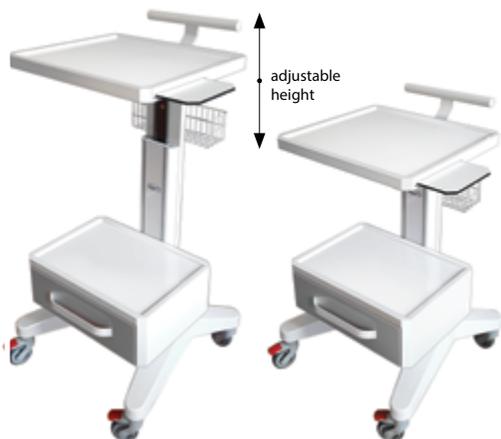

dimensions of top/shelves: **450 x 320 mm** [L x S]

dimensions of the drawer: **450 x 320 x 155 mm** [L x S x H]

APAR-2 SERIES

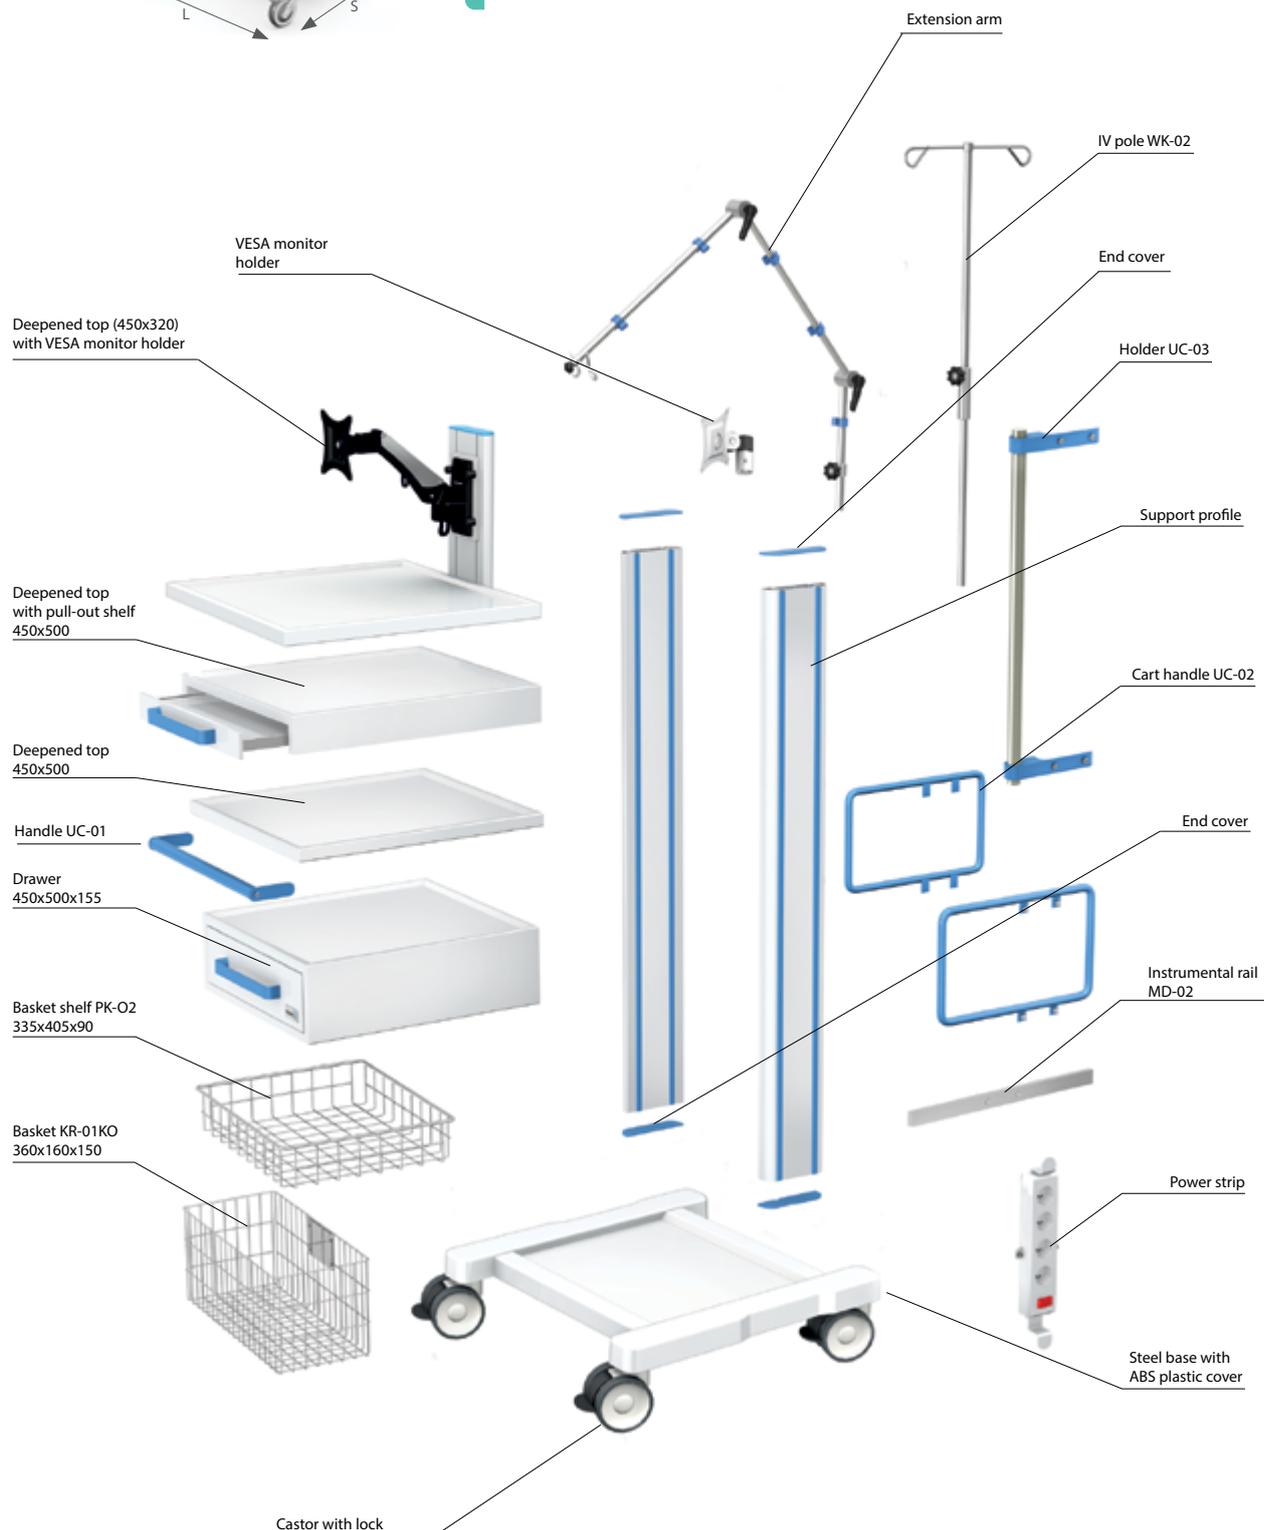

Dimensions of the cart without optional equipment:

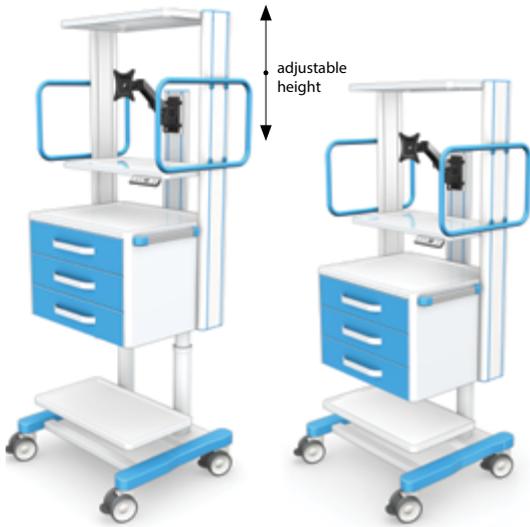

length: **575, 625, 675, 725 mm** [L] (dimensions adapted for device)
width: **585 mm** [S]
height of trolley: **800-1800 mm** [H]
height adjustable with electric actuator in the range of:
adjustment range: **±250 mm** [H]
available lengths of the top/shelves: **450, 500, 550, 600 mm** [L]
width of the top/shelves: **500 mm** [S]

Additional equipment: power strip, monitor holder, accessories basket, instrumental rail, top section for plastic tilting containers 4, 5 or 6 pcs, cable arm, IV pole, extension arm, keyboard shelf, waste bag holder, oxygen tank holder

Option: single castors with a diameter of 75 mm

Innovative cart for medical equipment with electric drive enabling height adjustment by means of an electric actuator.

MULTI SERIES

MULTI-03 (ABS) with equipment

Elements of **MULTI series carts** are made of:

- cabinet** (optional): powder coated steel or stainless steel grade 0H18N9 (AISI 304), equipped with sound-insulating material, minimizing vibrations
- top** (optional): powder coated steel, stainless steel grade 0H18N9 (AISI 304) or ABS plastic, with deepening, with bands on three sides
- base** (optional): powder coated steel, steel with ABS plastic cover or stainless steel grade 0H18N9 (AISI 304), equipped with 125 mm diameter castors, including two with lock

Equipment and additional accessories:

- instrumental rail to attach accessories
- pull-out side top
- pull-out cuvettes of different capacities
- pull-out baskets of various sizes
- basket for catheters
- IV drip pole with height adjustment
- plastic waste bin with lid
- waste bag holder with lid and clamping ring fastening the bag
- glove box holder: single, double or tripple
- container for used needles
- basket for accessories
- over-top section with 4, 5 or 6 plastic tilting containers
- soap dispenser
- cabinet with drawers with central lock

Cabinet's dimensions:

length: **400, 600, 700, 800, 900 mm** [L]

width: **500 mm** [S]

height from the ground to the top: **1000 mm** [H]

Cabinet/drawers dimensions to be chosen with customer.

The possibility of using baskets or cuvettes with dimensions of 400 x 300 mm.

Cabinet models:

MULTI-01

length of the cabinet:
400 mm [L]

MULTI-02

length of the cabinet:
600 mm [L]

MULTI-03

length of the cabinet:
800 mm [L]

MULTI-04

length of the cabinet:
700 mm [L]

MULTI-06

length of the cabinet:
900 mm [L]

Options based on used materials:

ABS option:

powder coated steel cabinet in colours consistent with TECHMED RAL palette, top and base cover of ABS plastic

Option ST:

cabinet entirely of powder coated steel in colours consistent with TECHMED RAL palette

Option KO:

cabinet entirely of stainless steel grade 0H18N9 (AISI 304)

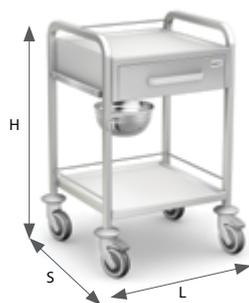

TREATMENT TABLES

STKO

STKO SERIES

Elements of **STKO (KO) series treatment tables** are made entirely of stainless steel grade 0H18N9 (AISI 304)
frame of bent square profile with integrated instrumental rails to hang additional equipment, equipped with 100 mm diameter castors with bumpers, including two with lock
top with deepening to prevent equipment from sliding off

Additional equipment: tilting waste bowl, waste bag holder with a lid, over-top shelf, folding shelf, top section with 4, 5 or 6 plastic tilting containers, container for instruments, glove box container, used needles container, basket for accessories, IV drip pole with height adjustment, catheter basket

Option: fronts powder coated in colours consistent with TECHMED RAL palette

Available top lengths: 450, 500, 550, 600, 1100 mm [L]

INSTRUMENTAL TABLES

E-01

E-01-E

E-02

E-03

INSTRUMENTAL TABLES K-4 SERIES MAYO TYPE

E-01KO

E-01KO table is made entirely of stainless steel grade 0H18N9 (AISI 304)
top with deepening, with horizontal 360° rotation, with rotation lock, **hydraulic** height adjustment in the range of 950-1320 mm with foot pedal
base equipped with single castors with 75 mm diameter with lock

Options for additional charge: removable top for easy disinfection, disassembled by one movement of the lever; double castors of 100 mm diameter with lock

*changing the castors affects the range of the table's height adjustment

Total dimensions:
750 x 500 x 950-1320 mm [L x S x H]
Top dimensions: 750 x 500 mm [L x S]

Option: a table equipped with double castors with 100 mm diameter

INSTRUMENTAL TABLES K-4 SERIES - ELECTRIC

The only electrically powered instrumental table on the market that allows the table top to be raised and lowered by means of an electric actuator controlled by footswitches located in the table's base. It has a built-in set of batteries with a safe voltage of 24V, an automatic overload fuse and an optical-sound system that indicates a low battery level. Equipped with an external battery charger, which allows for maintenance-free operation, signaling the completed charging process.

Table E-01KO-E made entirely of stainless steel grade 0H18N9 (AISI 304), equipped with single castors with 75 mm diameter with lock.
Top with deepening, with horizontal 360° rotation, with rotation lock.
 Height adjustment by electric actuator in the range of **910-1310 mm**.

Options for additional charge: removable top for easy disinfection, disassembled by one movement of the lever; double castors of 100 mm diameter with lock
 *changing the castors affects the range of the table's height adjustment

Total dimensions: 800 x 500 x 910-1310 mm
 [L x S x H]
Top dimensions: 750 x 500 mm
 [L x S]

E-01KO/E

E-01KO i E-01KO-E with a removable top

Option: a table equipped with double castors with 100 mm diameter

INSTRUMENTAL TABLE E-02 TYPE

Elements of **E-02 tables** made of:

top of stainless steel grade 0H18N9 (AISI 304), with **lifted up edges** or **deepening**, manual height adjustment in the range of 850-1300 mm

base of powder coated steel, equipped with castors with 75 mm diameter

Option: table entirely of stainless steel grade 0H18N9 (AISI 304)

Total dimensions:

750 x 500 x 850-1300 mm

[L x S x H]

Top dimensions: 750 x 500 mm

[L x S]

E-02KO with deepened top

E-02ST with a deepened top

E-02ST/FR with a flat top

E-02KO/FR with a flat top

Total dimensions: 600 x 400 x 900-1500 mm [L x S x H]

Top dimensions: 600 x 400 mm [L x S]

INSTRUMENT TABLE E-03 TYPE

Table E-03 is made entirely of stainless steel grade 0H18N9 (AISI 304)

top with deepening, manual height adjustment by means of a **hand crank** in the range of 850-1200 mm

base equipped with castors with 75 mm diameter, all with lock

Total dimensions: 1100 x 600 x 850-1200 mm

[L x S x H]

Top dimensions: 1100 x 600 mm

WZ-2DR

castors with a diameter of 200 mm

WZ-2DR trolley is made entirely of stainless steel grade 0H18N9 (AISI 304)
frame suitable for bags with a capacity of 160 l, equipped with castors of 200 mm diameter, including two with lock
cover lifted with a pedal
rim is equipped with clips to prevent the bag from sliding off

DIMENSIONS

capacity	length [L]	width [S]	height [H]
160 l	600	700	1025

WZS-01

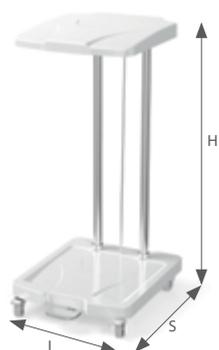

WZS-01 trolleys are made entirely of stainless steel grade 0H18N9 (AISI 304)
folded frame suitable for bags with a capacity of 100 l, equipped with castors of 50 mm diameter, including two with lock
cover lifted manually
rim is equipped with clips to prevent the bag from sliding off

DIMENSIONS

capacity	length [L]	width [S]	height [H]
100 l	520	530	1000

* It is possible to modify the product according to the individual customer's needs.

MB SERIES

MB-02

DIMENSIONS

capacity	length [L]	width [S]	height [H]
60-80 l	395	495	695
100-120 l	395	495	875

Option: waste trolleys with segregation labels

MB-07

Elements of **MB series trolleys** are made of:

frame, rim for bags of stainless steel tubes grade 0H18N9 (AISI 304)

cover of ABS plastic in white or gray colour, with soft close, lifted manually or with a foot pedal

basket shelves of powder coated steel

steel base with ABS plastic cover in white or gray, equipped with 50 mm diameter castors, including two with lock

Option: clamping ring to put on the rim fixing the bag without use of clips, the rim equipped with silicone to prevent the bag from slipping off

MB2-02

RKS

BASKET TROLLEYS WK SYSTEM

WK-01/A

Dimensions: 520 x 430 x 880 mm [L x S x H]

Elements of the **WK system trolleys** are made of:
frame made of stainless steel tubes grade 0H18N9 (AISI 304), equipped with castors with a diameter of 75 mm, including two with lock; the frame allows any height adjustment of the shelves only by means of fasteners without the need to make holes

steel powder coated **basket shelves**, possibility of mounting shelves on guides

handle of stainless steel grade 0H18N9 (AISI 304)

plastic waste bag **cover**

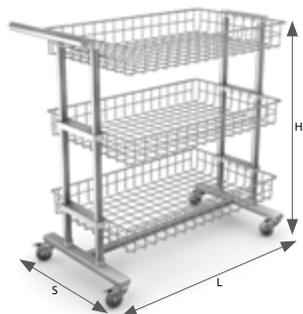

Option: trolley entirely of stainless steel grade 0H18N9 (AISI 304)

Dimensions of basket shelves:

PK-02: 335 x 405 x 90 mm

PK-01: 655 x 405 x 90 mm

[L x S x H]

WK-02/A

WK-02/B

WKS-2 with equipment

MOBILE SLATTED RACKS RKS SYSTEM

RKS-5
with equipment

Total dimensions:
575 x 540 x 1900 mm
[L x S x H]

RKS system racks are made entirely of stainless steel grade 0H18N9 (AISI 304), **base** is equipped with castors with a diameter of 100 mm, including two with lock.

Racks are equipped with baskets and shelves

RKS-5 with equipment

Total dimensions:
575 x 450 x 1900 mm
[L x S x H]

RKS-6 with equipment

Total dimensions:
575 x 750 x 1900 mm
[L x S x H]

WALL RACKS FOR SHOES

Wall-mounted **shoe racks ROB series** are made entirely of stainless steel grade 0H18N9 (AISI 304)

Distance between single hangers: **80 mm**

Dimensions depends on rack configuration:
number of levels and hangers

ROB-01-04

ROB-02-05

ROB-02-04

ROB-01-05

RACKS AND SLATED RACKS RKS SYSTEM

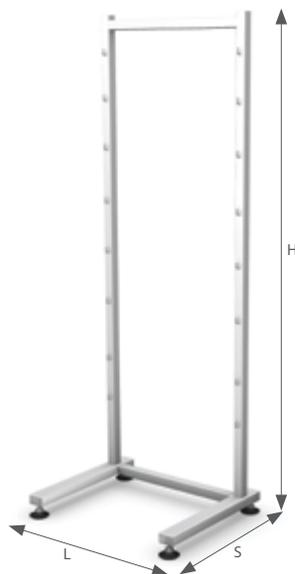

RKS system is made entirely of stainless steel grade 0H18N9 (AISI 304)
The racks are wall or free-standing slats with hooks for hanging baskets and shelves

RKS-2

Rack RKS-2 with equipment

RKS-3

RKS-4

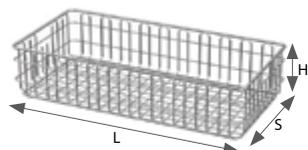

Dimensions:
height: **800-1600 mm [H]** - depending on the equipment
spacing of slats: **530 mm**

Total dimensions:
550 x 450 x 1900 mm
[L x S x H]

Total dimensions:
550 x 750 x 1900 mm
[L x S x H]

STERILIZATION BASKETS KSKO SERIES

Baskets of KSKO series are made of stainless steel grade 0H18N9 (AISI 304)
The size of the baskets is adjusted to the unit of sterilization charge, in accordance with the requirements of European standards according to PN-EN-2852
The design allows easy storage by placing one on another, placing it in special trolleys or racks

KS-1

Total dimensions:
575 x 280 x 135 mm
[L x S x H]

KS-2

Total dimensions:
575 x 280 x 260 mm
[L x S x H]

KS-3

Total dimensions:
575 x 280 x 260 mm
[L x S x H]

PACKETIZING TABLES OF PAK SYSTEM

PAK system tables are made entirely of stainless steel grade 0H18N9 (AISI 304).

The base is equipped with feet with the possibility of levelling or castors with a diameter of 125 mm, all with lock

Additional equipment: sterilization baskets: KS-1, KS-2, KS-3; top section for 4, 5 or 6 tilting containers, over-top shelves, waste bag holder, cabinet, drawer

There is possibility to match both dimensions, and an equipment to individual needs.

Total dimensions:

length: **800, 1000, 1200, 1400 mm [L]**

width: **500, 700 mm [S]**

height: **800 mm [H]**

TROLLEYS FOR CARRYING SHEET PAPER PAP SERIES

PAP-2

PAP-3

PAP series trolleys are made entirely of stainless steel grade 0H18N9 (AISI 304), equipped with castors with a diameter of 100 mm, including two with lock

Total dimensions:
1100 x 550 x 900 mm
[L x S x H]

STORAGE RACKS RM SERIES

RM series racks are made entirely of stainless steel grade 0H18N9 (AISI 304). They are equipped with 4 or 5 shelves and adjustable feet to level the rack.

Rack for self-assembly.

Total dimensions:
length: **800, 1000, 1200 mm** [L]
width: **400, 500 mm** [S]
height: **1800 mm** [H]

RM-01
solid shelves

RM-02
perforated shelves

RACKS FOR BEDPANS AND URINALS SYSTEM WS

Racks for bedpans and urinals WS system is made entirely of stainless steel grade 0H18N9 (AISI 304), equipped with 4 or 5 rod shelves fixed straight or slanted

Option: drip tray made of stainless steel grade 0H18N9 (AISI 304)

Total dimensions:
length: **600, 800, 1000 mm** [L]
width: **400 mm** [S]
height: **1800 mm** [H]

WS-01/4

RACKS FOR BEDPANS AND URINALS SYSTEM SL

Racks for bedpans and urinals are made entirely of stainless steel grade 0H18N9 (AISI 304)
supporting rail with hooks adapted for mounting the dryers
drip tray made of plastic
available dryers: bedpans, lids, urinals

Option: drip tray made of stainless steel grade 0H18N9 (AISI 304)

Mounting: to the wall or as a trolley

Configuration of dryers depending on the needs of the customer

Total dimensions:
length: **550, 750, 850 mm [L]**
width: **450 mm [S]**
height: **1200-1900 mm [H]**

option: base SM-04A adapted to devices weighing up to 20 kg

* It is possible to modify the product according to the individual customer's needs.

KO-2m SERIES

Telescopic IV poles KO-2m series are made entirely of stainless steel grade 0H18N9 (AISI 304), the boom consists four tubular elements that are attached to each other inseparably and sliding telescopically
The head with two hooks.

Dimensions:

- length when folded: **700 mm**
- length when unfolded: **2000 mm**

KO-2m

Option: KO-2m with curtain clips

KO-2m with handle USU2-01 type for the instrumental rail

KO2-2m double

PT SERIES

The PT telescopic screens are made entirely of stainless steel grade 0H18N9 (AISI 304), the boom consists four tubular elements, attached to each other inseparably and sliding telescopically
The screens are equipped with polyester curtain with waterproof coating or washable curtain

Boom mounting: to the wall, with a handle for an instrumental rail or on a mobile base. Base made of steel, powder coated or of stainless steel grade 0H18N9 (AISI 304), or of steel in a cover made of ABS plastic.

PT-01

Dimensions of the telescope:

- length when folded: **700 mm**
- length when unfolded: **2000 mm**

PT-01/250

- length when folded: **850 mm**
- length when unfolded: **2500 mm**

PT-02 with handle USU2-01 type for the instrumental rail

Colours of washable curtains: blue, white, beige

Colours of polyester curtains with waterproof coating: mint, yellow, blue, white, beige, green

PJ SERIES

PJ-01 ST

Elements of **PJ series screens** are made of:

frame of aluminum profile powder coated white

base of powder coated steel section in white colour, equipped with 50 mm diameter castors, including two with lock

filling with the polyester fabric with waterproof coating in colours: mint, yellow, blue, white, beige, green

Option: frame powder coated in selected colour consistent with TECH-MED RAL palette or entirely of stainless steel grade 0H18N9 (AISI 304)

Dimensions:

- length of the wing in a single wing screen: **800, 1000, 1200 mm [L]**
- length of the wing in a multi-wing screen: **700 mm [L]**
- total height: **1700 mm [H]**
- width of the base: **450 mm [S]**
- with a wing length of 1200 mm, the width of the base is 500 mm

PJ-02 ST (2x700 mm)

PJ-03 ST (3x700 mm)

PJ-03 ST (3x700 mm)

PJ-01 ST (MAT)

Elements of **PJ series screens (MAT)** are made of:

frame of bent steel section, powder coated in white

base of powder coated steel section in white colour, equipped with 50 mm diameter castors, including two with lock

filling with the polyester fabric with waterproof coating in colours: mint, yellow, blue, white, beige, green

Option: frame powder coated in selected colour consistent with TECH-MED RAL palette or entirely of stainless steel grade 0H18N9 (AISI 304)

Material marking:

KO stainless steel grade 0H18N9

ST powder coated steel

PJ/PC SERIES

PJ-01 ST (PC)

Elements of the **PJ series screen (PC)** with a plastic board are made of:
frame of aluminum profile, powder coated in white
base of powder coated steel section in white colour, equipped with 50 mm diameter castors, including two with lock
filling with white board of PC plastic (polycarbonate)

Option: frame powder coated in selected colour consistent with TECH-MED RAL palette

Dimensions:

- length of the wing in a single wing screen: **800, 1000, 1200 mm [L]**
- length of the wing in a multi-wing screen: **700 mm [L]**
- total height: **1700 mm [H]**

SR SERIES

Elements of **SR series tables** are made of:
frame of powder coated steel
bed upholstered with washable and resistant to disinfection material
manually adjustable **headrest** with ratchet mechanism
sheet roll holder

Option: frame made of stainless steel grade 0H18N9 (AISI 304)

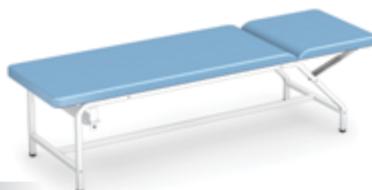

Technical data:

- headrest length: 500 mm
- total length: 1850 mm
- total width: 560 mm
- total height: 500 mm
- total height SR-2 type in non-magnetic version on castors: 600 mm

SR-1

- two-segment bed
- adjustable headrest: +45°

SR-3

- two-segment bed
- adjustable headrest: from -45° to +45°

SR-2

- two-segment bed
- adjustable headrest: +45°
- total height: 600, 700, 800 mm

SR-4

- three-segment bed
- adjustable headrest: +45°
- adjustable footrest: from -45° to +45°

SR-2 non-magnetic version on castors

- two-segment bed
- adjustable headrest: +45°
- frame of strengthened aluminum profile
- non-magnetic materials

Option: table equipped with 125 mm diameter castors, including two with lock (SR-1, SR-2 only)

Option: frame made of stainless steel grade 0H18N9 (AISI 304)

Option: table equipped with side guards (in the non-magnetic version)

INJECTION CHAIRS WP SERIES

Elements of **injection chairs WP series** are made of:
frame powder coated in white
seat, backrest and **armrests** upholstered in washable and resistant to disinfection material

Option: frame made of stainless steel grade 0H18N9 (AISI 304)

WP-1

Technical data:

- total length: 695 mm
- total width: 640 mm
- total height: 950 mm
- seat dimensions: 500x450 mm
- height from the ground to the seat: 510 mm
- armrest height and rotation adjustment

Shelf made of stainless steel grade 0H18N9 (AISI 304) in the form of a removable tray

WP-2

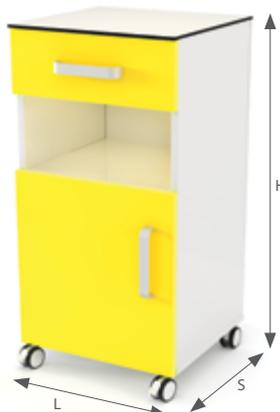

Technical data:

- swivel seat: 360°
- seat height adjustment: 445-565 mm
- seat dimensions: 410 x 360 mm
- dimensions of the backrest: 410 x 360 mm
- dimensions of the armrest: 130 x 400 mm
- dimensions of the tray: 320 x 115 x 17 mm
- total dimensions: 790 x 635 x 870 - 990 mm

WD SERIES

WD-1

WD-1

Elements of **WD-1 series bedside cabinet** are made of:
top of waterproof HPL laminate
cabinet of laminated chipboard
base equipped with 55 mm diameter castors, including two with lock

Total dimensions: 430 x 460 x 880 mm
 [L x S x H]

Elements of **WD-2 series bedside cabinet** are made of:
top of waterproof HPL laminate
frame of powder coated aluminum
drawer and cabinet of powder coated steel in colours consistent with TECH-MED RAL palette
basket shelf of powder coated steel in colours consistent with TECH-MED RAL palette (option: stainless steel grade 0H18N9 (AISI 304))
base equipped with 55 mm diameter castors, including two with lock

Total dimensions: 430 x 410 x 880 mm
 [L x S x H]

WD-2

WD-2/P

WD-6/A

WD-6/B

Elements of **WD-6 series bedside cabinet** are made of:
 top of ABS plastic
 frame of anodized or powder coated steel in colours consistent with TECH-MED RAL palette
filling of laminated chipboard
base equipped with 55 mm diameter castors, including two with lock (option: base of ABS plastic)

Total dimensions WD-6/A:
460 x 330 x 880 mm [L x S x H]

Total dimensions WD-6/B:
480 x 400 x 880 mm [L x S x H]

* It is possible to modify the product according to the individual customer's needs.

Elements of **WD-7 series bedside cabinet** are made of:

top of waterproof HPL laminate or ABS plastic with deepening

frame of anodized or powder coated steel in colours consistent with TECH-MED RAL palette

filling of laminated chipboard

base equipped with 55 mm diameter castors, including two with lock (option: base of ABS plastic)

Total dimensions WD-6/A:

460 x 330 x 880 mm [L x S x H]

Total dimensions WD-6/B:

480 x 400 x 880 mm [L x S x H]

WD-7/HPL

WD-7/ABS

WD-8

WD-8/P

Elements of **WD-8 series bedside cabinet** are made of:

top of ABS plastic, with deepening
cabinet and **drawer** of powder coated steel in colours consistent with TECH-MED RAL palette

slide-out top of waterproof HPL laminate, sliding-out to left and right side

frame of powder coated aluminum profile

base of steel with ABS plastic cover, equipped with 55 mm diameter castors, including two with lock

Total dimensions: 480 x 400 x 880 mm

[L x S x H]

Elements of **WD-9 series bedside cabinet** are made of:

top of ABS plastic, with deepening
cabinet and **drawer** of powder coated steel in colours consistent with TECH-MED RAL palette

slide-out top of waterproof HPL laminate, sliding-out to left and right side

frame of powder coated aluminum profile

base of steel with ABS plastic cover, equipped with 55 mm diameter castors, including two with lock

Total dimensions: 480 x 400 x 880 mm

[L x S x H]

WD-9/P

SP "FRIEND" SERIES

Technical data:

- Manual height adjustment in range: 850-1300 mm [H]
- Height adjustment by gas spring in range: 850-1150 mm [H] using a hand lever

SP-1

top of laminated chipboard
frame of powder coated steel
base of steel, equipped with 75 mm diameter castors, including two with lock
option: frame and base of stainless steel grade 0H18N9 (AISI 304)

dimensions:
base: **730 x 430 mm** [L x S]
top: **735 x 430 mm** [L x S]
option: tilt of the top: **-60° +60°**

SP-1/ABS

top of ABS plastic, with deepening
frame of powder coated steel
base of steel, equipped with 75 mm diameter castors, including two with lock
option: frame and base of stainless steel grade 0H18N9 (AISI 304)

dimensions:
base: **730 x 430 mm** [L x S]
top: **730 x 410 mm** [L x S]
option: tilt of the top: **-60° +60°**

SP-1/ABS-2

top of ABS plastic, with deepening
frame of powder coated steel
base of steel with ABS plastic cover, equipped with 75 mm diameter castors, including two with lock

dimensions:
base: **765 x 455 mm** [L x S]
top: **730 x 410 mm** [L x S]
tilt of the top: **-60° +60°**

SP-2 with a gas spring

top of ABS plastic, with deepening
frame of powder coated steel
base of steel with ABS plastic cover, equipped with 75 mm diameter castors, including two with lock

dimensions:
base: **765 x 455 mm** [L x S]
top: **730 x 410 mm** [L x S]
option: tilt of the top: **-60° +60°**

SP-1/ABS-2

top of ABS plastic, divided, with deepening
frame of powder coated steel
base of powder coated steel, equipped with 75 mm diameter castors, including two with lock
option: frame and base of stainless steel grade 0H18N9

dimensions:
base: **730 x 430 mm** [L x S]
top: **730 x 410 mm** [L x S]
tilt of the top: **-60° +60°**

SP-1/ABS-2 with a gas spring

top of ABS plastic, divided, with deepening
frame of powder coated steel
base of powder coated steel, equipped with 75 mm diameter castors, including two with lock
option: frame and base of stainless steel grade 0H18N9

dimensions:
base: **730 x 430 m** [L x S]
top: **730 x 410 mm** [L x S]
tilt of the top: **-60° +60°**

PRODUCTS FOR NEONATAL WARD

BM SERIES

BM0

index: BM0-ST

Elements of **baby cribs BM0 series** are made of:
frame of tubular powder coated steel or stainless steel grade 0H18N9 (AISI 304), equipped with 75 mm diameter castors, all with lock
tub of plastic, equipped with mattress

External dimensions of the baby crib:

830 x 570 x 980 mm [L x S x H]

Internal dimensions of the tub:

660 x 410 x 220 mm [L x S x H]

Baby cribs BM0 have the possibility of inserting one into another crib frame to enable easy storage.

BM0-ST option: frame powder coated (colours consistent with TECH-MED RAL palette)

BM0-KO

Frame made of stainless steel grade 0H18N9

Reverse Trendelenburg position +12°

Baby cribs BM0 have the possibility of inserting one into another crib frame to enable easy storage.

BM1

index: BM1-SG-W

Elements of **baby cribs BM1 and BM2 series** are made of:
frame of powder coated in white aluminum profile, tub of plastic
 decorative elements powder coated in colours consistent with TECH-MED RAL palette
base of ABS plastic, equipped with 75 mm diameter castors, all with lock

External dimensions of the BM1 baby crib: 755 x 480 x 970 mm [L x S x H]

External dimensions of the BM2 baby crib: 765 x 480 x 970 mm [L x S x H]

External dimensions of the BM2-D-SG baby crib:

815 x 480 x 970-1270 mm [L x S x H]

Internal dimensions of the tub: 660 x 410 x 220 mm [L x S x H]

Option: height adjustment by gas spring in range: 970-1270 mm

Additional equipment:

- basket shelves, steel shelves
- accessories baskets
- containers for glove box
- waste bin with lid, waste bag holder

MBR SERIES

SPP-01

Elements of **MBR series tables** are made of:
frame of powder coated in white aluminum profiles
top of ABS plastic, with bands on three sides, equipped with upholstered mattress
cabinet/drawers/shelves of white laminated chipboard
fronts of lacquered MDF furniture board in colours consistent with TECH-MED RAL palette
base of steel with ABS plastic cover, equipped with 75 mm diameter castors, including two with lock

Additional equipment: container for glove box, used needles container, tilting bowl, waste bin, accessories baskets. Additional equipment is mounted on instrumental rail mounted to the table frame.

Total dimensions: 830 x 660 x 950 mm [L x S x H]
Height from the ground to the top: 900 mm [H]
Basket shelf dimensions: 655 x 405 x 90 mm [L x S x H]
Height adjustment range: 650-1300 mm [H]

SPTM SERIES MS (MATTRESS FIXED PERMANENTLY)

SPTM MS

SPTM-01 MS

SPTM-02 MS

Elements of **SPTM MS series tables** are made of:
frame of powder coated aluminum profile, allowing any height adjustment of cabinets or shelves or hanging any additional equipment
top of chipboard, upholstered mattress on the surface and bands on three sides

SPTM AL SERIES

SPTM-02/AL

SPTM-03/AL

Elements of **SPTM AL series tables** are made of:

frame of closed aluminum profiles and ABS connectors, anodized or powder coated in colours consistent with TECH-MED RAL palette
top of powder coated steel, with ABS plastic bands, upholstered mattress on the surface and bands on three sides

cabinet of double-sided laminated chipboard, equipped with legs with possibility of levelling

SAM SERIES

SAM-01

Elements of **SAM series tables** are made of:

top of powder coated steel, with plexi bands on three sides, equipped with mattress

cabinet with doors or drawers of white laminated chipboard, equipped with 100 mm diameter castors

fronts of lacquered MDF furniture board in colours consistent with TECH-MED RAL palette

sliding-out shelf for scale of chipboard, equipped with bands protecting against slipping off the equipment

Total dimensions: 1000 x 700 x 1050 mm

[L x S x H]

Height from the ground to the top: 900 mm

* It is possible to modify the product according to the individual customer's needs.

KACPEREK

AB set with a monolithic top

Elements of **KACPEREK series baby nursing stations** are made of: **cabinet and shelves** of double-sided laminated chipboard, cabinet equipped with legs with possibility of levelling
fronts of lacquered MDF furniture board in colours consistent with TECH-MED RAL palette
top of modules **A** (bathtub), **U** (washbasin) and **B** (nursing table) of glass-polyester laminate
nursing table equipped with mattress

Standard: stand-alone modules, **option:** modules connected with connectors

Standard: modules with separate top, **option:** monolithic top for AB set

Additional equipment: mixer tap with high spout, mixer tap with pull-out spout, mixer tap with thermostat, waste bin, sliding-out shelf for scale

Module U - washbasin

Dimensions:
400 x 580 x 900 mm
[L x S x H]

Module A - bathtub

Dimensions:
800 x 580 x 900 mm or
900 x 580 x 900 mm
[L x S x H]

Module B - nursing table

Dimensions:
700 x 580 x 900 mm
[L x S x H]

Module P - set of shelves

Dimensions:
250 x 580 x 900 mm
[L x S x H]

Set AB
with a monolithic top

Set UABBP

AGATKA

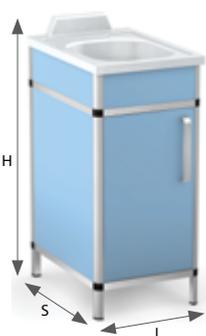

Set AB with a monolithic top, on a combined of anodized frame

Elements of **AGATKA series baby nursing stations** are made of:
frame of closed aluminum profiles and ABS connectors, anodized or powder coated in colours consistent with TECH-MED RAL palette, equipped with legs with possibility of levelling
filling with double-sided laminated chipboard
top of modules **A** (bathtub), **U** (washbasin) and **B** (nursing table) of glass-polyester laminate, **top** of module **C** (treatment table) of chipboard
nursing table and **treatment table** equipped with mattress

Standard: stand-alone modules, **option:** modules on a combined frame

Standard: modules with separate top, **option:** monolithic top for AB set

Additional equipment: mixer tap with high spout, mixer tap with pull-out spout, mixer tap with thermostat, waste bin, sliding-out shelf for scale

Module U - washbasin

Dimensions:
400 x 580 x 900 mm
[L x S x H]

Module A - bathtub

Dimensions:
800 x 580 x 900 mm or
900 x 580 x 900 mm
[L x S x H]

Module B - nursing table

Dimensions:
700 x 580 x 900 mm
[L x S x H]

Module B1 - treatment table

Dimensions:
900 x 580 x 900 mm
[L x S x H]

Option: module A with drawers

Set AB, with a monolithic top, on a combined powder coated frame

OXYPODS BT SERIES

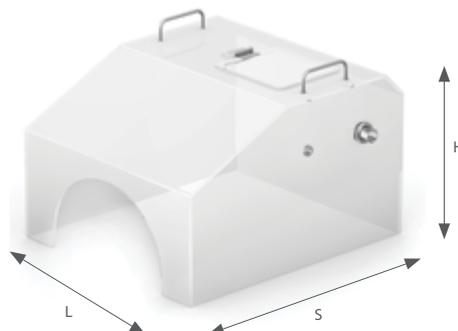

Oxypods made of transparent plastic, UV stabilized, 4-5 mm thick

Fitted with output connections for oxygen tubes, EEG pipes, oxygen analyser and intravenous tubes

BT-01

Outer dimensions:
260 x 285 x 175 mm
[L x S x H]

Cutting out for baby's body:
150 x 135 mm
[L x S]

BT-02

Outer dimensions:

MEDICAL AND LABORATORY FURNITURE ALUMED SYSTEM

Elements of **medical furniture ALUMED system** are made of:

- frame** of closed aluminum profiles and ABS connectors, anodized or powder coated in colours consistent with TECH-MED RAL palette
- profiles** of aluminum of cross section 25 x 25 mm
- filling** of double-sided laminated chipboard 18 mm thick
- all **edges** protected by PVC connectors 2 mm thick
- top** of postforming chipboard 28-36 mm thick, HPL laminated
- legs 100 mm** with possibility of levelling
- glazed **door** with 4 mm thick safety glass in anodized aluminum frame
- sinks** of stainless steel

Optional equipment:

- **central lock** - for storage and drawer units (max. 5 drawers of same height or 4 of various heights)
- **castors** instead of legs, in other cabinets than mobile type, of 80-160 mm diameter
- **shelves** of glass to cabinets and hanging cabinets with glazed doors
- **colours** outside from TECH-MED RAL palette

Accessories:

- **hinges** CLIP top type adjustable in three dimensions, with protection against corrosion
- **handles** for doors and drawers anodized or powder coated in colour of the frame
- **locks** for doors and drawers
- **castors** for storage and drawer units with non-marking tread, including two with lock
- 5-leg **base** for storage and drawer units with plastic castors with non-marking tread, including two with lock
- **drawers** with soft close

The main element of the laboratory workspace is the working table. The appropriate type of table top and the selection of accessories determine the comfort of work. In order to use the space around the table top in a functional way, the equipment includes: standing cabinets, wall hanging cabinets, a set of drawers, over-top sections. Laboratory table tops are made of various materials, depending on the physical and chemical properties, and above all the degree of resistance to chemicals. The selection of the proper table top depends on the specifics of work in the laboratory.

Available laboratory tops:

- **DURCON** – very durable, resistant to moisture and very high resistance to acids, bases and high temperature.
- **TRESPA „TOP LAB”** – very durable and resistant to the most aggressive chemicals, resistant to moisture.
- **MAX - Resistance** – flame retardant, resistant to moisture and most chemicals, temperature resistance 180°C.
- **CORIAN** – ability to match shape and the rim of top to its requirements, ability to link with no visible joints, resistant to most chemicals, temperature resistance 230°C.
- **KONGLOMERAT** – flame retardant, resistant to moisture and most of interaction of the weak chemical compounds.
- **LAMINAT HPL** – hard and flame retardant, resistant to scratching, impacts and to the most weak chemicals, temperature resistance 120°C.

Examples of laboratory furniture

* It is possible to modify the product according to the individual customer's needs.

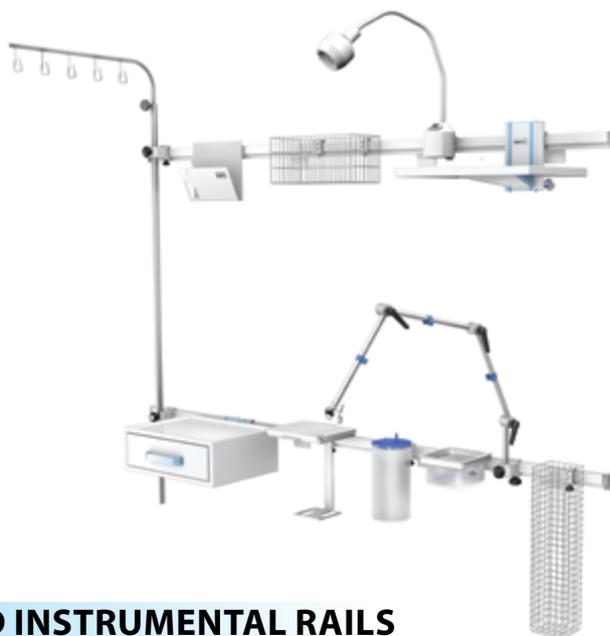

RAIL SYSTEM

ISA rail system consists of instrumental rails **MODUR** and **EUROSTANDARD** type mounted directly to the wall and elements for supporting medical equipment such as: shelves, trays, hangers, screens. The system ensures ergonomic spatial organization of devices and equipment.

Cross sections of the instrumental rails:

- **MODUR: 10 x 30 mm**, made of anodized aluminum profile
- **EUROSTANDARD: 10 x 25 mm**, made of stainless steel grade 0H18N9 (AISI 304)

EXTENSION ARMS WKP SERIES

WKP extension arms are manufactured as one-, two- or three-joint arms. They are made of:

- aluminum tube with galvanized coating (anodized or electro-polished)
- aluminum tube powder coated
- stainless steel tube, polished or matt
- chrome-plated steel tube

They are equipped with instrumental rail handle for mounting, one, two or three joints with lock, drains or cables holder, flexible arm, holder or hanger.

Arms length: 200, 300, 450, 550 mm

The diameter of the tube: 16 mm, 20 mm

Mounting: to instrumental rail using rail handle.

Bedside mobile rail PMS system has been designed to improve the work of medical personnel. It is used in places where it is impossible to mount instrumental rails.

The frame is adapted for mounting medical equipment and rail accessories, such as: IV drip pole, monitor holder, accessories basket, oxygen tank holder, catheters container, waste bag holder, cables holder, bottle holder, infusion pump hanger, waste bowl, instruments container, power strip, and many other accessories according to the customer's needs.

A wide range of accessories allows the bedside mobile rail PMS system to be adapted to the individual needs of the customer.

Elements of **PMS rail system** are made of:

frame of powder coated aluminum profile

instrumental rail of 25x10 mm stainless steel grade 0H18N9 (AISI 304) and/or 30x10 mm aluminum

base of steel with ABS plastic cover, equipped with 125 mm diameter castors, including two with lock

Dimensions:

length: 620 mm [L]

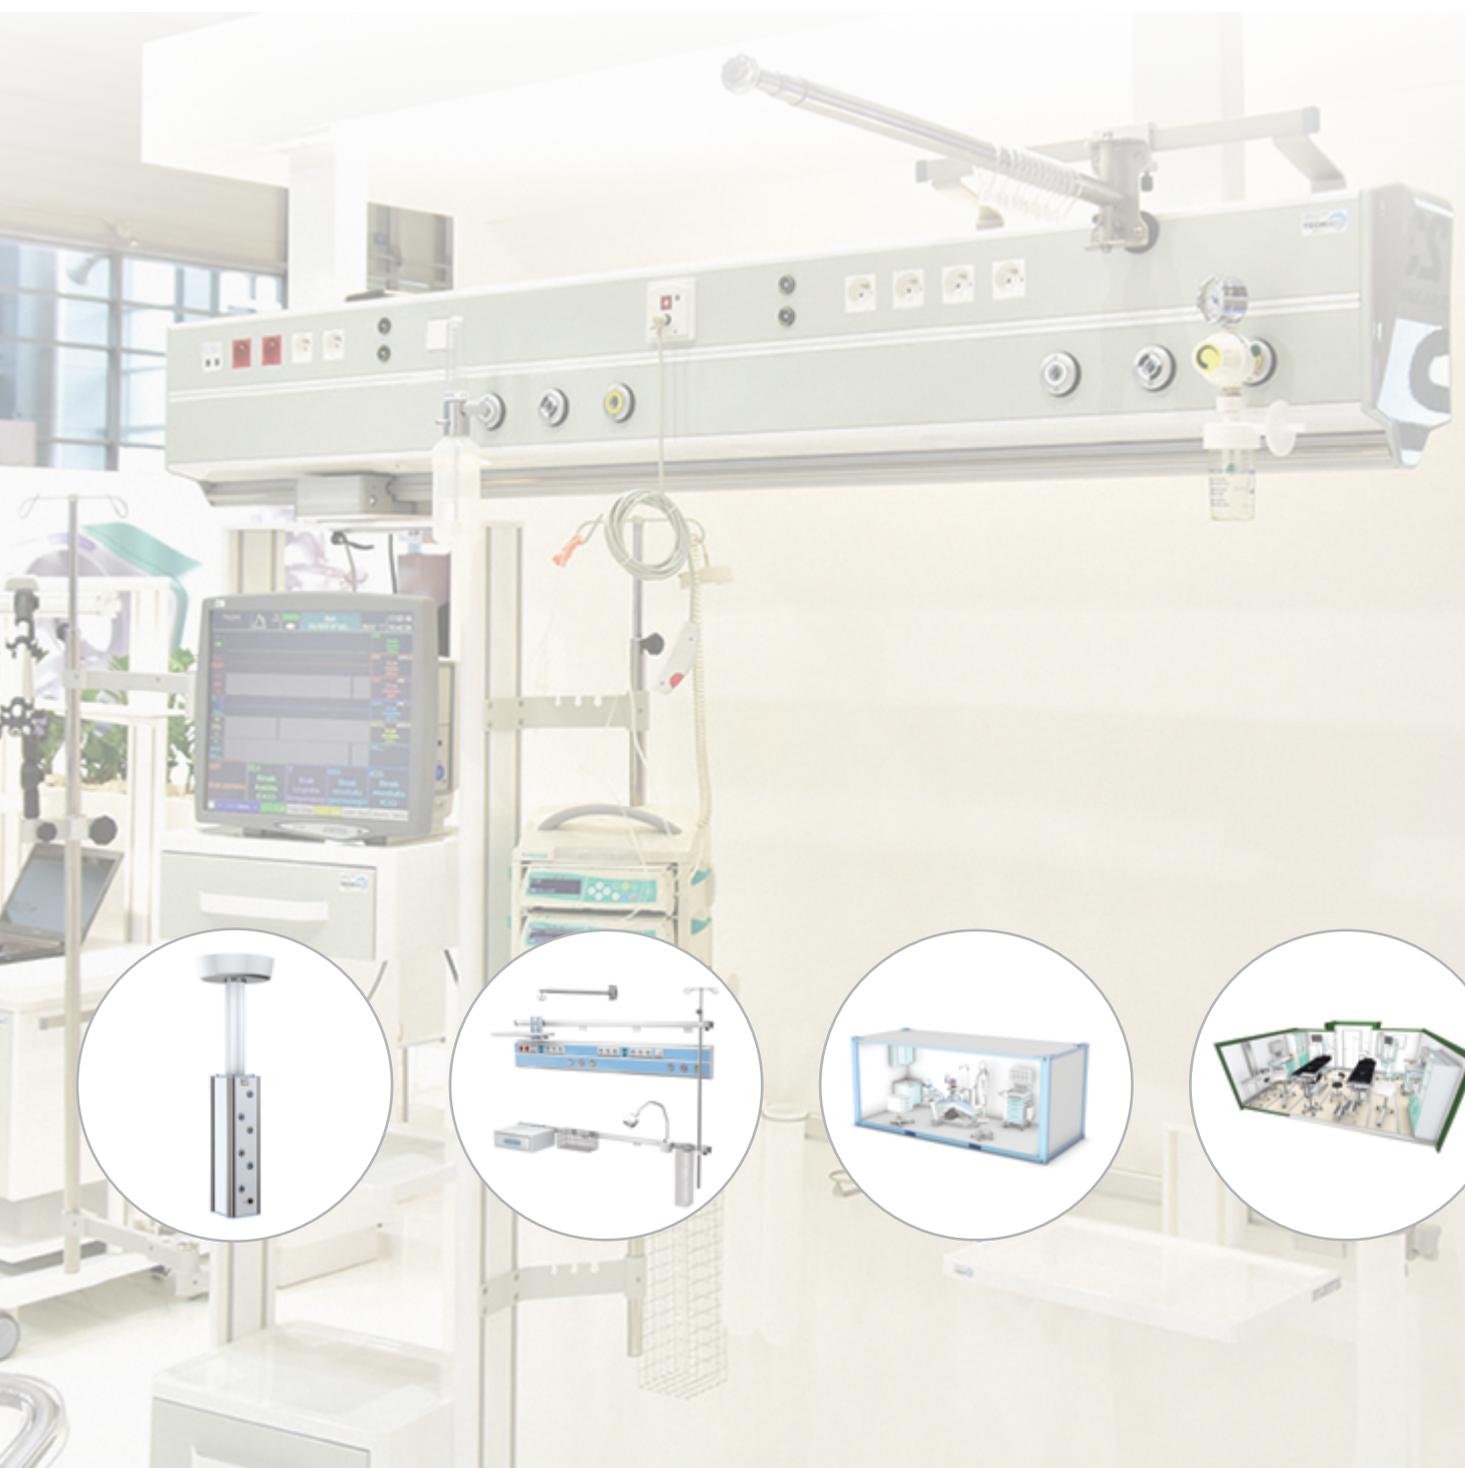

width: 585 mm [S]

height: 1700 mm [H]

Examples of PMS rail system

SPECIALIST MEDICAL EQUIPMENT

ISA 9003 IOM

ISA 9003 IOM medical pendant provide:

- fixing to the ceiling
- connection of medical equipment with rated voltage of 230 V
- connection of the equipotential power cable
- medical gas outlets: O₂, V, Air, N₂O
- anaesthetic gas scavenging system (AGSS)
- medical compressed air supply
- possibility of mounting additional equipment

Height of the console depends on the equipment (number of medical gas outlets and number of power socket)

ISA 9003 IOM medical pendant can be equipped with:

- ethernet outlet
- potential equalization socket
- power sockets 230 V
- medical gas outlets
- medical device shelves
- drawers
- instrumental rails
- IV poles

Medical pendants with SURGICAL equipment:

- AIR MOTOR outlet

Medical pendants with ANAESTHETIC equipment:

- anaesthetic gas scavenging system (AGSS)

ISA 9003 IOM

ISA 9000 SU

Bed head units ISA 9000 SU horizontally ceiling-mounted are equipped with:

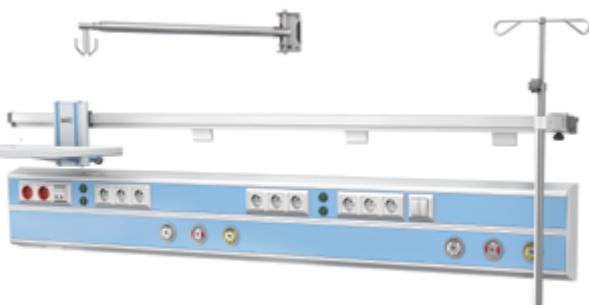

- fixing to the ceiling
- power sockets 230 V
- ethernet outlet
- potential equalization socket
- reading light
- night lightning
- lights switch
- medical gas outlets (O₂, V, Air, N₂O)
- channel relay modules for nursing call system

Length of the unit depends on the equipment (number of medical gas outlets and number of power socket)

Additional equipment: instrumental rail, infusion pumps hangers, IV drip poles, medical device shelves, DEDAL shelving system

ISA 9000

ISA 9000

Bed head units ISA 9000 horizontally wall-mounted are equipped with:

- power sockets 230 V
- ethernet outlet
- potential equalization socket
- reading light
- night lightning
- lights switch
- medical gas outlets (O₂, V, Air, N₂O)
- channel relay modules for nursing call system

Length of the unit depends on the equipment (number of medical gas outlets and number of power socket)

Additional equipment: instrumental rail, ISA rail system, infusion pumps hangers, IV drip poles, medical device shelves, drawers, DEDAL shelving system

Additional equipment depends on the customer's needs and is adapted to the requirements of the room, depending on its purpose.

Innovative mobile medical container systems equipped with products offered by Zakład Techniki Medycznej „TECH-MED” Sp. z o.o. constitute a set of medical units for use in field conditions. Offered equipment allows optimum use of the available storage space while maintaining good working conditions for staff.

A wide range of products allows to equip departments, such as:

- dressing room
- preoperative holding area
- operating theater
- ICU
- laboratory
- pharmacy
- dentist's office
